SUMMARY

I am Junior Full-Stack Developer with hands-on experience in team projects using JavaScript, React, Node.js, and TypeScript. Skilled in building responsive, user-friendly web applications and collaborating in agile teams. Eager to apply knowledge and grow as a software engineer in a professional environment

PROJECTS

- **YogaBloom**

GitHub Repository

HTML, CSS, JavaScript

A responsive multi-section landing page designed for a yoga studio, featuring modern layout, intuitive navigation, and clear presentation of services. Contributed to the development and implementation of interactive website components as part of a team project.

- **ForceTech**

GitHub Repository

HTML, CSS, JavaScript

Participated in a team project developing a music discovery web app using HTML, CSS, JavaScript, and an external API. Contributed to UI and API integration.
